Address: Bagtas, Tanza, Cavite

OBJECTIVES

A BSIT graduate from Cavite State University - CCAT, I specialize in developing high-quality, cost-effective systems tailored to the unique needs of individuals and businesses, focusing on functionality, user experience, and impactful design.

WORK EXPERIENCE

Business Unit Planner - Oct2024 - Mar2025

San Miguel Incorporated Logistics Services

- Downloading, monitoring, and Planning business unit orders using SAP
 - Creating delivery receipts and managing shipments
 - Ensuring accurate processing of requested delivery dates and times
-

PROJECTS

Mappinternships

Web-based: On-the-Job-Training Mapping System for Cavite State University CCAT-Campus

MappInternships is not just a tool for finding internships—it also serves as a submission platform where students can connect with their OJT coordinators or school supervisors.

- Submit OJT requirements
 - Locate students at their assigned OJT locations.
-

TECHNICAL SKILLS

- Microsoft-oriented, including Microsoft Word, Excel, and PowerPoint.
- Familiarity with SAP (Systems, Applications, and Products in Data Processing), including navigating the system, performing transactions, and utilizing its tools for managing business operations.
- Knowledge in programming using HTML, CSS, Javascript, PHP, ReactJS, Laravel, ExpressJs, NodeJs, MySQL and MongoDB

SOFT SKILLS

- Organized – Able to manage multiple tasks and prioritize effectively.
 - Detail-oriented – Ensures accuracy in work and documents.
 - Proactive – Takes initiative to solve problems and improve processes.
 - Adaptable – Willing to adjust to changes in tasks, technology, or environment.
 - Time management skills – Effectively manages time to meet deadlines.
-
